The Excel Early College Program

“When You’re Ready, We’re Ready”

If you have struggled in school but are ready to make a change, ECHS's Excel program might be right for you. In 2-3 years, you can earn a **high school diploma** and up to **20 college credit hours**.

Excel combines one year of credit recovery and academic skills building, followed by a combination of high school and college courses. The program is designed to be completed in three years from start to finish. During that time, students are expected to complete about 20 college credit hours (nearly 1 year of college).

To qualify for the program, you need to be between 15 and 17 years old and have at least 20 passed high school credits (the equivalent of two, year-long classes).

A few more quick facts about ECHS's Excel Program:

- ü **ECHS is a free public school.** There is no tuition for high school or college courses.
- ü **We value your unique strengths.** Everyone learns in a different way and a different pace. We will work with you make school work for you again.
- ü **ECHS is an open admissions school.** There are no admission exams and students from any school district may enroll.

Tuesday, May 19, 7:00 pm

Monday, June 1, 7:00 pm

Thursday, June 11, 7:00 pm

Monday, July 6, 7:00 pm

Tuesday, July 21, 7:00 pm

NOTE: All information sessions will be held at ECHS located at 4905 W. 60th Avenue (Just west of Sheridan Boulevard in Arvada).

Our Core Values

Everyone at Early College High School, both students and staff, is held to high standards and expectations. As a program of ECHS, Excel incorporates the same core values embedded in our **"5 R's": Respect, Responsibility, Rigor, Relevance, and Relationships.**

The Excel Difference

A Different Schedule: As an older high school student, we understand that you have unique strengths, along with unique needs. We run a later schedule than most high schools -- from **9:30 a.m. until 4:00 p.m.** so students with night-time employment have a little more time to sleep.

Small Class Sizes: Class sizes are maintained between 20 and 23 students each.

Credit Recovery Options: You don't need to "retake" classes the same old way hoping for a better result. Instead, we offer traditional classes, self-paced study, and computer-based/online classes to recover credit from previous years.

Building on Your Strengths: Classes are designed to build on your strengths and are age-appropriate for older high school students. Most classes are taught in a professional workshop setting.

A Focus on Student Support: Our teaching and counseling staff specializes in creating programs for students who want an alternative path to academic success.
